

**Mark where each superhero lands after they finish travelling by writing their name on the arrow**

*Batman travels in his Batmobile for 2 hours*

*Captain America runs for 4 hours*

*Spiderman swings from buildings for 5 hours*

*The Hulk walks for 11 hours*

*Thor runs for 5 hours*

*Iron Man jet-pack travels for 2 hours*

- 1) Which superhero has travelled the furthest?
- 2) Which superhero has travelled the shortest distance?

Superwoman joins the other superheroes and travels at 14mph for half an hour.

- 3) How far has she travelled?
- 4) Superman travels 15km in 3 hours. How fast was he travelling? Can you draw a diagram to help you explain your answer?
